TESTING REPORT for making Beetroot & Carrot Strip

Tool: YT-9104-FT3 / Shyang-Tian Mandolin Slicer

CUTTING surface area for WIDTH 93mm and LENGTH 310mm

serrated blades:

1) **Fine serrated blade:**

Length: adjustable by your option.

Thickness: adjustable by your option. About 0.3 ~ 4mm.

Width: +/-1.0mm (unchangeable and fixed)

2) **Medium serrated blade:**

Length: adjustable by your option.

Thickness: adjustable by your option. About 0.3 ~ 4mm.

Width: +/-2.5mm (unchangeable and fixed)

3) **Coarse serrated blade:**

Length: adjustable by your option.

Thickness: adjustable by your option. About 0.3 ~ 4mm.

Width: +/-6.5mm (unchangeable and fixed)

Tool: ST-9804-FT3 / Super Mandolin Slicer

CUTTING surface area for WIDTH 95mm and LENGTH 350mm

serrated blades:

1) **Fine serrated blade:**

Length: adjustable by your option.

Thickness: adjustable by your option. About 0.3 ~ 4mm.

Width: +/-1.0mm (unchangeable and fixed)

2) **Medium serrated blade:**

Length: adjustable by your option.

Thickness: adjustable by your option. About 0.3 ~ 4mm.

Width: +/-2.4mm (unchangeable and fixed)

3) **Coarse serrated blade:**

Length: adjustable by your option.

Thickness: adjustable by your option. About 0.3 ~ 4mm.

Width: +/-9.5mm (unchangeable and fixed)
